To particularize the first indication of my suffering would be useless, luasmuch as all persons who have this disease well kindw its first appearance. Yet all may not know its result with some, particularly persons of weak, debittated constitutions. I, about five years ago, began to see the ne-LF Orlando Fish, Fashionable Hatter, 137 Broad way, would inform the gentlemen of New York that his ressity of applying remedies as soon as possible in order to stop its progress, and for this purpose applied to a regular physician. Finding, after actual experience, nesuccessful with the first. Finding, after actual experience, that the medical faculty were unable to prostrate my disease, and finding advertisements commending Swaim's Panacea for Scrofula. I, not willing to omit any means where there was a probability of success, immediately commenced taking it, and continued until I became convinced of the foulity of doing so. The Hygean system was then tried with as little success. Baffled in every application I had made, and almost banished hope, when a friend proposed a full and ample trial of the effects of Mercury. Mercury was then liberally and plentifully taken, and the effect was indeed astonishing, for it produced numberless ulcers and continued to attenuate and break down the system until I was obliged to keep my bed. Saliva was continually run-AMERICAN style of Hats, instead of servilely copying the Fashions of Europe, which are often unsuited to our climate and manners, he rejoices to perceive that others have seen fit to follow his lead, and that now the following of European Fashions in Hats is almost entirely abandoned by the leading manufacturers,

He offers a Winter style of Gentlemen's Nutria Hats at 3.50, and warrants them equal in material, finish, fashion and durability to any Hat sold as low as \$4 in the city But he wishes it distinctly understood that his best Hats are not sold at this price, but at \$4.50. These he recommends as equal to any hat sold in New-York at \$5 or under, and continued to attenuate and break down the system until y was obliged to keep my bed. Saliva was continually running from my mouth in consequence of salivation. My face was eaten to the bone, my ears partially gone, the alcers continued increasing in size and numbers until the calfs of my legs, and my whole person externally, was literally a corrupted and a putrid mass. In the interim it will be seen I had lost all animal strength, was so debilitated as to be scarcely able to communicate my wants, and was last approaching dissolution. The Scrofula had undermined my constitution, and the medicine I had taken to extinguish it had produced a complication of maladies if possible more as equal to any hat sold in New-York at \$5 or understandingly of them a comparison with any other.

Gentlemen visiting our city are respectfully invited to call and examine his new stock of Winter has and judge of their quality. As repeated salivations had produced only the mischief incident to the use of Mercury, an inveterate cor-ruption of the blood, most miserable weakness and infection, emaciated appearance, excrutiating pain in the bones, and obstimate carrious ulcers which had in many places laid bare the liveragest and home. the ligament and bone. the ligament and bone.

My appetite was restored, my strength daily increased, and so effectually did his medicine act as an alterative and a restore—as a cure for Scrofula or King's Evil, as a remedy for mercurial obseases—that I am, after a lapse of about two months, perfectly cured, and able thus to certify to the benefit I received from the Carm mantia, to express my grantiade for the noremitted attention the Doctor has bestowed upon me, and call the attention of not only those suffering from Scrofula, but the public in general, to a discovery which I believe the public in general, to a discovery well-calculation and the public in general and the public in g lieve is unparalleled in medicine-a discovery well-calcula ted to prove a blessing to myriads yet unborn—a discovery which in my estimation approximates nearer the Elixir-vitæ, long sought for by alchymists, than any other yet ob-

I A Report of Dr. John Thomson'

345 Bruome-treet, continued. New-York, Oct. 26, 184. This may certify that I was attacked about five years since with what my physicians called inflammation on the neck of the bladder, or as some called it the gravel. The disorder was so very distressing that at times I could no lay down in bed. I employed four of the best physicians in my vicinity without any advantage. The great variety in my vicinity without any advantage. The great variety of remedies which I used produced dyspepsia, costiveness, general derangement of the digestive organs, of the nervous system, and a general debility of the whole body. Being in New York on business I was more severely attacked than usual, on Saturday the 22d inst., and called upon Doctor Thempson, 343 Broomest, on the 24th, and with astonishment I have the satisfaction to state to the world that I am now better than I have been before in five years. The inflammation of the bladder, gravel, or whatever it has been called, has to all appearance entirely left me in the space of three days. I can now say to all I feel perfectly well. No pain, distress or inquitude whatever do I feel. I may not continue so, but should I have another attack, I I have the utwost confidence in the remedies that have relieved me now. My age is \$3 years. I start for home tomorrow morning at 7 o'clock. I refer to John R. GREAT SAVING to the Purchaser .-GREAT SAVING to the Purchaser.

The subscriber has endeavored bonestly to conform to the Notice which he gave to the public on Saturday last, of his intention to give 4½ pounds of Wheat Bread for one shilling. As there has not been any advance in the price of Flour, there is no good reason why there should be a reduction in the weight of a shilling or six cent loaf. It is my intention strictly to fulfill my promise, whether it is made by a label in my window, a handfull, or an advertisement in one or more newspapers. I have this day purchased from four Bakers each a 6½ cent loaf. The following is the weight of each loaf. They all advertise to sell 5 pounds for a shilling. a shilling. 64 cent loaf, (B.) 2 lbs. 6 ozs. instead of 2 lbs. 3 ozs.

It will be perceived from the above that the public are most grossly deceived, and it remains for them to say whether they will countenance such base conduct by continuing their patronage of such persons. I have, in view the above, come to the conclusion to enfarce a fulfilment of obligation by offering, on Saturday the 29th of October, (and after—or as long as circumstances shall justify,) a re-5 lbs. of pure Wheat Bread for 1 shilling. duction, viz:

eases which confined me to my house and bed a great portion of the time, my stomach extremely weak and sore, violent pains in my side, my strength exhausted, and, in fact, reduced to such a degree that life seemed to be nearly extinct. I was invited by Dr. Starkweather, and by his advice commenced the use of his medicines—but was so weak and debilitated that I could take but half the usual dose of the Hepatic Elixir. I had taken so much medicine previously that I had no faith or confidence in any thing that bore the name of medicine. However, I continued the use of the Hepatic Elixir, in half doses, for one week, when I begrn to feel its beneficial effects; I was then directed to increase the dose, which I found I could easily bear, and to the utter astonishment of myself and friends, I was soon able to leave my bed, and in a few weeks was able to ride 30 miles in one day, which I could not have done before at any time in ten years past. I can now do my work about house, and feel perfectly well. I feel truly grateful to the Doctor, for his prescriptions, and sincerely believe the use of his Elixir has resord me to health, and I can do no less than to earnestly entered tall who are suffering with bilions diseases to go and do likewise, and they may rest assured that they will derive as much benefit from it as I have done. I believe Dr. Starkweather's H-natic Elixer to be a truly valuable medicine.
